2nd address: Mashhad, Aleppo, Syria
Birthday: 1 – January – 1995
Driving license: type-B

Profile

Senior chemist with 5 years of hands-on experience in chemical & pharmaceutical manufacturing, seeking to contribute to high-standard work environments.

Work Experience

Ultra Medica Pharmaceutical Industries, Saidnaya, Syria

Mar 2022 – present

Sterile Section Supervisor → Key responsibilities:

- Supervise and execute all sterile section operations, including: sterilization, CIP/SIP, raw material weighing, preparation, ampoule washing & depyrogenation, aseptic filling, visual/automatic ampoule inspection and packaging.
- Monitor ERP, HVAC and surveillance systems to maintain compliant and efficient operations.
- Select sterile-grade filters per product requirements, monitor life cycles and perform integrity testing.
- Review batch manufacturing records (BMRs) with the QA team, initiate and document deviation procedures when needed.
- Review and update SOPs in compliance with GMP standards in coordination with section manager.
- Coordinate cross-functional workflows with R&D, QC and Water Treatment sections.
- Prepare daily shift reports for management, highlighting operational performance and anomalies.

Key achievements:

- Identified and resolved issues in machine control systems, implemented process improvements that enhanced overall productivity.
- Developed time-saving tools including Excel VBA dashboards (production tracking), automated yield calculators and HTML/JS apps to streamline routine tasks.

Zain Cham Sulpho-Chemicals (sulfonation plant), Adra industrial city, Syria

Aug 2020 – Mar 2022

Production Supervisor & QC Analyst → Key responsibilities:

- Supervised maintenance operations (reactor cleaning/calibration), monitored production line parameters, resolved equipment malfunctions and led production team, enforcing safety protocols and workflow efficiency to meet production targets.
- Cross coordination with control room, field team and QC lab to implement real-time process improvements.
- Prepared and standardized QC solutions for accurate testing of sulfonation products.
- Analysed in-process and final product samples (pH, assay, density, viscosity, free oil and water hardness) ensuring compliance with specifications.

Education and Training

Tishreen university, Lattakia

October 2019

Bachelor's degree in applied chemistry (grade of 74.4%)

Ministry of internal trade and consumer protection, Damascus

February 2017

Certificate of accomplishment in 'Microbiological Analysis' (excellent grade)

Volunteering

Former volunteer at Relief and Development Center (RDC)

Nov 2018 – Oct 2020

Participated in 16 days campaign 2018 performed by RDC in cooperation with UNFPA
(certificate of participation)

Skills and Competences

Leadership & Soft Skills:

- Team Leadership | Shift Management | Regulatory Compliance
- Problem-Solving | Technical Troubleshooting | Process Optimization

Pharmaceutical Expertise:

- GMP/GDP Compliance | USP/BP Compliance | ISO Standards
- Batch Record Review | Deviation Handling | SOP Development

Technical Skills:

- ERP systems (Odoo) | HVAC systems (SCADA)
- MS Office (Advanced Word, Excel, Power Point, Outlook)
- Basic Programming (HTML, JS, Excel VBA) | AI-based tools
- Surveillance systems (Dahua)

Languages:

- Arabic – Native
- English – Upper Intermediate (B2)
- German – Beginner
